Where by moving the circles around, you create different forms, being able to read the positive form and the negative form. Sometimes the addition of elements like this problem that starts out with three simple circles, but where different compositions are created by the addition of elements, these are projects where the student is meant to learn how to see devoid of any of the more expressive problems that are contained in graphic designs communicative world. So, there's no idea in these projects, other than be able to see composition and to learn how to create visual difference within, again a very limited means of production. Like for instance, this exercise where variation in a group of circles is created simply by changing the weight of the circles. Then the student is allowed, at a certain point, to become free and to compose with these simplified elements to create more and more dynamic compositions. But the idea of being able to create within an incredibly limited means has continued to fascinate graphic designers even though this sort of design barely exists out in the world. The economy of means though is incredibly seductive. ...more Oct 16, 2016 Gary rated it it was amazing The first 20 pages of writing carry an intense tone that is not as approachable as I'd like it to be—but when you synthesize it down, the information is very valuable. Do I regret buying this book? No. Would I have bought it had I had the chance to pick it up and flick through it first? Probably not.A nice thing to have, but far from essential reading in my opinion. ...more Jack rated it really liked it Feb 17, 2022 平 李 rated it it was amazing Apr 27, 2016 Aaron rated it it was amazing Jul 26, 2013 Jenn Richter rated it it was amazing Jul 13, 2016 Natty Peterkin rated it really liked it Nov 22, 2018 Tim rated it it was amazing Sep 17, 2015 Ray rated it it was amazing Jun 08, 2022 Unborn rated it really liked it Dec 11, 2021 Guru rated it it was amazing May 01, 2022 Ray Ogar rated it it was amazing Feb 25, 2009 Tobias rated it it was amazing Mar 30, 2014 Mahdis rated it did not like it Jun 29, 2021 Alisa rated it did not like it Feb 27, 2013 Joseph Readdy rated it it was amazing Feb 09, 2014 Alex Magill rated it it was amazing Oct 25, 2016 Derek Love rated it it was amazing Apr 29, 2018 Stefan rated it it was amazing Mar 31, 2016 Steve rated it it was amazing Jan 05, 2016 Saraslmm rated it really liked it Jun 17, 2020 M.I rated it really liked it Dec 14, 2008
